

Quality Control Analyst - Manufacturing

Full Time
Mt. Laurel, NJ
Requisition ID: 1352

FLSA Status

Non-exempt

Job Summary

The Quality Control Analyst is responsible for ensuring the quality of materials and finished drug products are manufactured to meet current Good Manufacturing Practice (cGMP) and Epicur Pharma standards.

Essential Duties and Responsibilities include the following. Other duties may be assigned.

- Perform quality inspection on incoming materials intended to be used in the manufacturing of drug products.
- Perform in-process quality checks and inspections for finished drug products to ensure standard are met.
- Assist in documenting and maintaining material and product samples (i.e. retains, stability, finished product, etc.)
- Perform logbook reviews for accuracy and good documentation practice.
- Document inspection and testing results by completing QC reports and logs
- Perform random audits of manufacturing operations to ensure activities comply with quality standards and SOPs.
- Participate in the execution/verification of corrective and preventative action (CAPA) and change controls.
- Complete and review batch record documentation for quality release of finished product.

Required Education and Experience

- High school diploma or general education degree (GED)
- Familiar with cGMP and 21 CFR Part 210 & 211 preferred, but not required
- Must be capable of wearing all protective gear (gown, hair bonnet, mask, beard cover, gloves, goggles)
- Must be able to follow gowning/garbing procedures (cannot wear makeup, must remove jewelry before entering manufacturing area)
- Must possess strong verbal, written, and oral communication skills
- Must be able to work independently and with a team
- Able to recognize priorities and take action; make productive use of time
- Must exhibit punctuality and low absenteeism
- Able to sit and/or stand 8-10 hours or more per day as needed
- May need to lift up to twenty-five (25) pounds on occasion

Competencies
