

# Two Divisions, One Focus:

Improving patient outcomes  
with medication you trust.

# Our Family of Brands

Stokes Healthcare has prepared medications for your individual patients since 1975 through **Stokes Pharmacy**.

Recognizing the evolving needs of veterinary practices as regulations and laws changed, including GFI 256 and USP guidelines, we expanded to include **Epicur Pharma** to serve the needs of many of your patients with standardized and tested bulk medications.

503A Traditional  
Compounding Pharmacy

503B FDA Registered  
Outsourcing Facility

Stokes/Epicur Online  
Ordering Platform

# 503A vs. 503B

	503A	503B
Type of facility	Traditional compounding pharmacy	FDA Registered Facility
Product purpose	Customized prescriptions for individual patients	Manufactured drugs in large quantities for hospitals
Product availability	Epicur's manufactured products & Stokes' compounded preparations	Bulk orders for unlimited hospital administration & dispensing*
Primary regulatory oversight	State Board of Pharmacy	FDA
Regulations	USP (United States Pharmacopeia)	cGMP (current Good Manufacturing Practices)
FDA inspections	For cause (approx. 3k compounding pharmacies)	Regular inspections (approx. 69 facilities)
Product dating	Beyond-Use Date (limited)	Expiration Date (proven)
Stability testing of formulation to assign expiration date	✘	✔
Sterility testing as release for finished product testing	Limited - Only with extended dating and high-risk batches	✔
Finished product testing (potency, endotoxins)	✘	✔
Personnel gown monitoring	Twice yearly	Per batch
Personnel gloves monitoring	Once daily	Per batch
Retain sampling	✘	✔
Documentation for traceability & tracking	✘	✔
Process & equipment validations	✘	✔
Independent quality department (separate from production)	✘	✔

✘ = no/not applicable

✔ = yes/applicable

\*per federal law

# Quality Redefined

Consistency and reliability in every medication.

Each of our brands operates with key differences that impact your patient care and influence treatment plans, but they are all unified in their commitment to quality and improving patient outcomes with medication you trust.

## Why Stokes Pharmacy®

- Highest degree of quality for safe, reliable compounded prescriptions
- Accredited by the Pharmacy Compounding Accreditation Board (PCAB®) for meeting and/or exceeding national quality standards
- Multiple quality check points to ensure prescription accuracy
- Invested to provide the longest dating on most popular compounded medications in preparation for new USP guidelines
- Preparations consistent from lot to lot
- Offers Epicur's manufactured medications for patient prescriptions

## The Epicur Pharma® Advantage

- 100% manufactured medications following FDA-enforced regulations
- Medications are verified through stability and sterility testing
- Longer expiration dates than 503A compounded medications
- Reduced practice liability by using a cGMP product
- Increased revenue/patient compliance by stocking 503B medications
- Not affected by new GFI #256 requirements or new USP guidelines

## Product Portfolio

We offer one of the largest selections of 503B manufactured drugs that are traditionally compounded for animal health among currently registered 503B facilities nationwide. Every drug manufactured by Epicur meets FDA standards.

### 503B Oral Liquids

- **Buprenorphine** 0.5 mg/mL Suspension (CHICKEN Flavor), 120 mL bottle
- **Buprenorphine** 0.5 mg/mL Suspension (UNFLAVORED), 120 mL bottle
- **Gabapentin** 50 mg/mL Suspension (CHICKEN Flavor), 120 mL bottle
- **Gabapentin** 100 mg/mL Suspension (CHICKEN Flavor), 120 mL bottle
- **Metronidazole** 50 mg/mL Suspension (CHICKEN Flavor), 120 mL bottle
- **Metronidazole** 100 mg/mL Suspension (CHICKEN Flavor), 120 mL bottle
- **Metronidazole** 100 mg/mL Suspension (MARSHMALLOW Flavor), 120 mL bottle
- **Prazosin** 1 mg/mL Suspension (CHICKEN Flavor), 120 mL bottle
- **Prednisolone** 20 mg/mL Suspension (CHICKEN Flavor), 120 mL bottle
- **Ursodiol** 100 mg/mL Suspension (CHICKEN Flavor), 120 mL bottle

## 503B Injections

- **Apomorphine** HCL 1 mg/mL and 3 mg/mL Injection Solution, 10 mL
- **Buprenorphine** 0.5 mg/mL Injection Solution, 10 mL and 50 mL
- **Hydromorphone** 2 mg/mL Injection Solution, 10 mL
- **Mechlorethamine** 5 mg/5 mL (1 mg/mL) Injection Solution
- **Prednisolone Acetate** 25 mg/mL Injection Suspension, 30 mL

## 503B Ophthalmics

- **Cidofovir** 0.5% Ophthalmic Solution, 5 mL
- **Cyclosporin** AQ 1% and 2% Ophthalmic Suspension, 10 mL
- **Cyclosporin** Coconut Oil 1% and 2% Ophthalmic Solution, 15 mL
- **Cyclosporin** Corn Oil 1% and 2% Ophthalmic Solution, 10 mL
- **Cyclosporin Olive Oil** 2% Ophthalmic Solution, 10 mL
- **Cyclosporin/Tacrolimus MCT Oil** 2/0.02% and 2/0.03% Ophthalmic Solution, 10 mL
- **Demecarium Bromide** 0.125% and 0.25% Ophthalmic Solution, 10 mL
- **EDTA** 1% and 2% Ophthalmic Solution, 15 mL
- **Flurbiprofen Sodium** 0.04% Ophthalmic Solution, 10 mL
- **Idoxuridine** 0.1% Ophthalmic Solution, 15 mL
- **Megestrol Acetate** 0.5% Ophthalmic Suspension, 10 mL
- **Pilocarpine HCL** 0.1% Ophthalmic Solution, 10 mL
- **Prednisolone Acetate** 1.5% Ophthalmic Suspension, 10 mL
- **Tacrolimus** 0.03%, 0.1%, 0.5% and 1% Ophthalmic Ointment, 5 gm
- **Tacrolimus AQ** 0.02%, 0.03%, 0.1%, 0.3%, 0.5% and 1% Ophthalmic Suspension, 10 mL
- **Tacrolimus AQ** 0.02% and 0.03% Ophthalmic Suspension, 15 mL
- **Tacrolimus MCT** 0.1%, 0.3%, 0.5% and 1% Ophthalmic Solution, 10 mL
- **Tacrolimus MCT** 0.02% and 0.03% Ophthalmic Solution, 15 mL

<b>Toceranib</b>	2.5 mg · 5 mg · 12 mg · 17 mg · 25 mg · 40 mg	

*Our chemo tabs are smaller than a Tic-Tac®!*

## Blister Pack Benefits

Blister packaging is used to provide a safe and convenient way to dispense or administer prescribed medications.

- Improved adherence to prescribed therapy
- Decreased chance of medication errors
- Reduced risk of cross-contamination
- Reduced amount of PPE needed to dispense or administer

\*Stokes Healthcare is not affiliated with Ferrero Corporation.

# Why Partner with Us

- One stop direct to client or direct to office orders
- Great source of industry information with free webinars for CE credit, blogs and white papers
- Advisors on industry trends & guidances
- Convenience when ordering via phone or online via iFill
- Caring customer service from live reps
- Most orders ship same day with only 1-2 business days in transit

## Order your medications quickly and easily with iFill.

Ordering for office use or individual patient prescriptions via the iFill online portal ensures quick fulfillment through convenient, streamlined online purchasing.

### iFill benefits:

- View drug expiration date or BUD of current lot
- View available price breaks
- Detailed order history and invoicing
- Integrates with ERP and spending/practice management systems

Register for iFill today at [register.myifill.com](https://register.myifill.com)

*\*Registration can take up to 2 business days*
