

# Medication List

Stokes Healthcare has prepared medications for your individual patients since 1975 through **Stokes Pharmacy**. Recognizing the evolving needs of veterinary practices as regulations and laws changed, including GFI 256 and USP guidelines, we expanded to include **Epicur Pharma** to serve the needs of many of your patients with standardized and tested bulk medications that are 100% manufactured to FDA standards with reliable potency and sterility from batch to batch.

Each of our brands operates with key differences that support your patient care and influence treatment plans, unified in our commitment to quality and improving patient outcomes with medication you trust. You can be confident in your patient care when you partner with us, knowing there is consistency and reliability in every medication.
